PROFESSIONAL SUMMARY

- UI Frontend Developer with ~2 years of experience building responsive, high-performance web applications. Specialized in crafting user-centric interfaces using React.js, Next.js, TypeScript, HTML, CSS, and Tailwind. Strong collaboration skills with UX/UI teams and experience in Agile environments. Passionate about delivering accessible, visually consistent, and high-quality digital experiences across platforms.

SKILLS

Languages / HTML • JavaScript

Frameworks / Next.js • React.js • MUI • Tailwind CSS • Node.js • Express.js

Databases / MongoDB

Tools and Technologies / Git • Cucumber • Puppeteer • Manual and Automation Testing • REST APIs • Redux

WORK EXPERIENCE

Software Engineer

June 2023 - Present

Mymoneykarma Informatics India Pvt Ltd, Hyderabad

Development

- Led software engineering across **4+ diverse projects**, consistently delivering high-quality solutions on time.
- Developed responsive, pixel-perfect UI/UX interfaces, improving user satisfaction by **25%** based on feedback.
- Collaborated with **4 cross-functional teams** to align development with project requirements, ensuring **100% adherence** to timelines.
- Optimized software performance, improving scalability and reducing page load times by **30%** through code enhancements and best practices.
- Mentored **2 junior developers**, accelerating their learning curve and boosting team efficiency by **10%**.

Automation

- Implemented testing automation using **Puppeteer** and **Cucumber**, increasing testing efficiency by **40%** and reducing manual errors.
- Integrated **new tools** into the development pipeline, cutting down workflow automation time by **15%** and enhancing overall productivity.
- Provided constructive feedback in 50+ code reviews, contributing to cleaner, maintainable code and reducing post-deployment bugs by 20%.

PROJECTS

KarmaPro – Digital Loan Management Platform

Tack Stack: React.js, Next.js, Tailwind CSS, JavaScript, Redux, Axios, Formik, Yup, REST APIs

A partner-facing portal for NBFCs and banks to manage loan applications, referrals, and document workflows.

Key Contributions:

- Built responsive UI components and dashboards with Tailwind and React.
- Used Formik & Yup for dynamic form validation during onboarding/KYC.
- Integrated dynamic data-driven features with backend APIs using **Axios**, handling state with **Redux Toolkit**.
- Designed modular UIs for document uploads, performance tracking, and lead assignment.
- Ensured accessibility and performance through Lighthouse audits and lazy loading.

MyMoneyKarma Partner Portal

Tack Stack: React.js, Next.js, Tailwind CSS, JavaScript, Redux, Axios, Formik, Yup, REST APIs

Platform used by DSAs to onboard companies, manage loan projects, and track applications across 60+ lenders.

Key Contributions:

- Developed reusable React components for onboarding, loan project creation, and lead tracking flows.
- Integrated REST APIs for real-time data handling, authentication, and loan application management.
- Used Formik and Yup for multi-step form handling and conditional validations.
- Implemented responsive design using Tailwind CSS for seamless cross-device compatibility.
- Collaborated with backend and QA teams to ensure smooth integration and UI consistency.

MyMoneyKarma Customer Portal

Tack Stack: React.js, Next.js, Tailwind CSS, JavaScript, Redux, Axios, Formik, Yup, REST APIs

A customer-facing platform to apply for loans, credit cards, and buy/sell digital gold.

Key Contributions:

- Built responsive React components for user sign-up, loan application, credit card request, and digital gold transactions.
- Implemented multi-step forms with validation using **Formik** and **Yup**, ensuring seamless onboarding and KYC flow.
- Integrated with secure REST APIs for customer authentication, product eligibility checks, and application tracking.
- Applied **Tailwind CSS** for consistent styling and a modern user interface across all devices.
- Worked closely with product and design teams to deliver pixel-perfect UI aligned with user experience goals.

EDUCATION

Shriram Institute of Science and Technology <i>Bachelor of Technology in Mechanical Engineering</i>	<i>CGPA-8.38</i>	India, M.P., Jabalpur <i>June 2015 - June 2019</i>
Full stack Web Development <i>Newton School</i>		India, M.P., Jabalpur <i>June 2022 - Jan 2023</i>
